Newsletter - Vol 1 - June 2023

JAINS CARLTON CREEK (JCC)

*Let today be the start
of something new.
Happy Reading!!!*

Dear Parents and Children,

Warm Greetings from the entire TIPS family, Another exciting year is upon us and we at TIPS, are all thrilled and eager to watch our little learners grow and accomplish new things.

Children, we know you will make this year incredible in every aspect, and we are excited about making your journey of self-discovery engaging, inspiring, and fun.

Raising happy, confident, and secure children is the goal of every parent, and with all the responsibility to do just that, it's nice when you find that some of the simplest things, like choosing the "Right Pre-school", makes your job easier.

We promise you that the coming academic year, will be full of learning, fun, and exciting for our curious learners. To make this academic year more engaging, and to keep you abreast about the monthly activities that we celebrate at school, here's our first newsletter of the year

Happy Reading

With Regards

TIPS Hyderabad

Training for Trainers!!!

“Develop a passion for learning. If you do, you will never cease to grow.”

Continuous professional development of teachers and upgradation of teaching skills and strategies is crucial for any institute. We at TIPS, never fail to equip our teachers with the best practices and methods, that empower them on various teaching strategies and approaches. In a week long training session held at TIPS, South Campus, the staff gained valuable insight into various techniques and modern pedagogy strategies that helps them to better connect with, manage, and teach their students in a manner which ensures better leaning among students. Along with this, the entire staff of TIPS were oriented on POCSO Act which helped in enhancing the safety of our little ones.

The workshop utilized videos, pictures and teacher participation to transfer important information related to the Act. Our training also included “Safety and First Aid” sessions from a team of doctors from Ankura and Rainbow hospitals. Practical approaches were used by the doctors to make the staff understand the importance of giving First Aid at the right time. Last but not the least, we had called upon a renowned nutritionist, who provided a guiding hand in any nutrition concerns, that the teachers came up with. Overall the training sessions were very fruitful, and undoubtedly these sessions increase productivity, knowledge, and focuses on holistic development of a teacher.

Cambridge Early Years Programme

It gives us immense pleasure to state that we at TIPS follow Cambridge curriculum. Cambridge International offers a fully integrated and flexible educational system the Cambridge Pathway—that brings together globally recognized teaching and learning with meaningful assessments that measure student mastery.

The Programme that caters to the age group 3 to 6 years is termed as Cambridge Early Years Programme (CEYP). It gives young learners the best start in life, helping them to meet key early milestones and thrive in and outside of school. Cambridge Early Years is the first stage in our Cambridge Pathway, which gives students a clear path for educational success from a very early age.

Key Points of CEYP

- It helps children develop the knowledge, understanding and skills they need for the next stage in their education - whether they move on to Cambridge Primary or another programme.
- It is a child-centred, play-based programme that helps young learners to develop at their own pace. It encourages them to act independently, make their own choices and discover feelings of self-worth.
- It includes everything that a child needs for high-quality learning: a holistic, balanced curriculum, engaging classroom resources, and assessment approaches to help us measure the learners' progress.

Parent Orientation Programme:

We at TIPS, had organized Parent Orientation Programme for parents.

The main objective of this programme was to lay the foundation for the parents, to familiarize them with the curriculum, teaching methodologies, enrichment activities, and various other programmes that are held at school.

Important information regarding the commencement of the new session, transport, mode of communication with the school and other relevant details were provided to the parents.

The importance of effective communication between parents and teachers and active collaboration between the school and parents was also discussed.

The Orientation programme was a successful one as it made the parents aware of the readiness of the school to welcome the students in the New Academic Session .

Later, on that day school supplies like uniform , books , bags, shoes etc were also distributed for the smooth beginning of the new academic year .

We hope that the journey of students and parents with TIPS will be a happy and fruitful one.

First Day at School

All across Hyderabad, our new academic sessions began on 12th June ,2023.

The first day of school is a day of excitement, fun and a new experience all over but , along comes the anxiety and lots of questions that children have in their mind ,about the new environment and people that they see around.

Children at TIPS experienced a plethora of emotions on their first day of preschooling. Some were happy and some were crying their hearts out at the sight of their parents leaving them all alone. However, they soon found themselves comfortable in the cocoon of teachers taking care of them.

First day of school is really a very special day and we want the children to have the memory of their first day at school, with them always. Therefore, our young children were engaged in various activities, that they really enjoyed. The children got clicked, with a selfie frame and their smiling faces were what we always want our children to be with.

Before leaving for the day, a small token of love, in the form of a takeaway, was given to every child. The day ended on a beautiful note, with children saying “Good bye, see you tomorrow”, with lovely smile on their faces

Father's Day

Father's day is celebrated round the globe, to acknowledge and recognize the contribution, that fathers have, on the lives of their children. This day is celebrated to express our love, gratitude and respect for our father. Fathers are the protectors, mentors and role models, whom we look up to, at every stage of our lives.

At TIPS, we celebrated this special day to make our children aware of the importance of this day. Children expressed their love and care for their father by making small artifacts, and gifting it to them. Thus, making the fathers feel special on the occasion of "Father's Day"

National Eat your Vegetable Day

"National Eat Your Vegetables Day", is dedicated to get people eat their vegetables, and get an awareness about the health benefits that vegetables provide. The main idea of this day, is to have a vegetable with every meal, including snack as well. Vegetables are full of vitamins and essential nutrients. We, at TIPS want our students to know about the amazing health benefits of eating vegetables, from very early years of their lives.

So, we took a small effort, by celebrating the National Eat your Vegetable's Day with the Nursery Children, to get them familiar to different vegetables and develop a liking towards them. Children brought their favorite vegetables from their home. As a part of role play activity, a market scene was created. This helped the children in learning the names of different vegetables. They also had fun using lady's finger for printing activity.

Meet and Greet Day

The meet and greet day was organized at our school campus. It was a planned occasion, where the parents got an opportunity to meet the teachers of their children. The casual event was organized, to help parents clear their doubts, if any, regarding various activities, that are held at school also, the parents got a chance to take a round of the school on the Meet and greet day.

Overall the session was very fruitful, as it helped the parents and teachers get acquainted to each other.

International Yoga Day

International Yoga Day is celebrated on June 21st every year. This day serves as a platform, to spread an awareness about the infinite health benefits that yoga has, yoga helps in promoting not just the physical health, but also enhances the mental and spiritual wellbeing of an individual. At TIPS, we ensure that our children practice healthy habits therefore, the International Yoga Day was celebrated by introducing and explaining numerous benefits of yoga to the children. Children started their day by doing a yoga session along with their teacher. It was such a sight to see our children engrossed in meditation along with their mentors.

Bakrid

Bakrid is a festival that is celebrated with great pomp and fervor all over the nation. We at TIPS celebrated this festival, by conducting activities for the children at their classrooms. Also, children were given takeaways, on the occasion of this festival.
